Cleaning-to-Backup Ratio	90%/10%	75%/25%	75%/25%

Industry's widest cleaning path for the industry's fastest clean.

Water-propelled – no drive wheels to harm your pool liner.

Highly effective sweep hose gets sand off of steps and out of tight corners.

Programmable backup for 30, 50 or 75 seconds.

Large 6-quart debris bag so you empty the bag less often.

AquaDrive Programmable Technology spends less time backing up and more time cleaning.

Large intake capacity handles everything from dirt and leaves to acorns, twigs, pebbles and more!

Hayward Model 5060 3/4 H.P. Booster Pump (sold separately) provides consistent water pressure for optimal clean.

### Convenience. Performance. Innovation.

The Viper features a world of advanced technologies for added convenience and unmatched cleaning performance.

It's the perfect high-performance addition to your Totally Hayward™ System.

## Nothing gets past the Hayward® Viper™.

Dirt has nowhere to hide. From sand to the most tenacious twig, Viper cleans debris quickly. Meticulously, conveniently. With the widest cleaning path available – 41% wider than the closest competitor – you clean your pool even faster. Within 3 hours for the average pool. And since Viper sports the largest debris bag (6 quarts), you empty less often. You get crystal-clear water practically on demand.

Dirt and debris are no match for the wrath of Viper's cleaning path, which is 41% wider than its closest competitor.

### Viper does the dirty work, so you don't have to.

Viper cleans so fast, you'll hardly notice it's there. Cleans so thoroughly, you'll wish you had one in the house.

### Let the Viper's water jets take the pressure off your pool's surface.

Viper utilizes exclusive AquaDrive™ Programmable Technology to intelligently maneuver around your pool, with little time spent in reverse. Water jet propulsion won't harm pool surfaces like power-driven wheels can.
